

Please leave the Wisconsin No Call List in force. It has been very effective in eliminating unwanted telemarketing calls received. We have two young children that go to bed early and we used to receive 3-5 unsolicited telemarketing calls every night before the Wisconsin No Call program started. Needless to say, our children were woken up frequently by these calls. If the more lax federal no call list becomes effective in Wisconsin and I receive any unsolicited telemarketing calls, I will be very upset. I will actively boycott the companies and products they sell. Please leave the existing state no call list program in place. Thank you.
